

COMP405: Platform Based Application Development

Assignment 2

Due Date: April 4, 2016

In this assignment, you will create the index page for your personal home page using your knowledge in HTML5, CSS and Bootstrap. The page will have two themes- Academic Portfolio and Personal Section.

The page must consist of the following:

1. Navbar

- a. The navbar will have the following menu items:

- i. Linfield Home Page
 - ii. My Academic Work
 - iii. Images of Linfield
 - iv. Hobbies
 - v. Resume

2. Jumbotron

The jumbotron may consist of a carousel or any other content of interest.

3. Main Section

The main section may also contain more images or any other content of interest and may be divided into multiple columns.

4. Footer

The footer should contain, among other things, the copyright information.

Each link on the menu should open its corresponding page. Of particular importance for this assignment is your Academic Portfolio which will be a page to be opened when one clicks My Academic work.

The page should also have a navbar with the menu items and sections listing all your academic works for Freshman Year, Sophomore Year, Junior Year and Senior Year.

All other links should open an “Under Construction” dummy page. The rest of the work needed to complete your entire personal home page will be completed as part of your semester project, when you will add more content.
