COMP405: Platform Based Application Development
Assignment 1
Due Date: March 7, 2016

Exercise 1.
In this exercise you will create a slide show using images of your choice. You may use either of the two tutorials on slide show posted on the course website. The images must have a width of 1200 pixels and should have a border.

Save your work as **assignment1_1.html** *in the* **assignments** *folder on asteroid*

Exercise 2.
 Using HTML and CSS tags, create a resume page for yourself. The format must be similar to the one displayed on Page 3. You don't have to use the same font as the template but use at least 2 types of fonts to differentiate between the various lines. Hint: Use tables for even formatting where necessary. Make use of the following techniques as shown in the template:
- Heading tags or larger fonts for your name, objective, experience, education, etc.
- Bulleted lists for employment duties.
- Be creative and make your work look professional. Insert real content as if this were intended for a real prospective employer.

Later on during the semester you will create a link on your personal home page to this resume.

Save your work as **resume.html** *in the* **assignments** *folder on asteroid.*

Exercise 3
In this exercise you will design a simple web page using HTML5 and CSS as shown on Page4 showing some landmarks of Linfield.

Design your own logo for the page, the logo must have the following text in it : "Some Linfield Images".

First resize each image into two sizes – small size(thumbnails) and big size.

The size of the big images is: Width= 800px; Height= 600px and that of the thumbnails is: Height = 150px; Width=113px.

On clicking on the link as shown in the text, the corresponding larger image should be displayed on a different page. On clicking the "Back" link under the large image, the user should be taken back to the page with the thumbnail images.

Use background colors of your choice.

Save main page with the thumbnail images as "**assignment1_3.html**" and the other page with the big image must be saved as the **imagename.html**

First test your work on WAMP/MAMP and upload them into your assignments folder on the webserver (students.iugb.udu.ci)

[Your Name]

[**Street Address**], [**City, ST ZIP Code**]
[**phone**]
[**e-mail**]

Objective

[Describe your career goal or ideal job.]

Experience

[Dates of employment]   [Company Name]   [City, ST]

[Job Title]
- [Job responsibility/achievement]
- [Job responsibility/achievement]
- [Job responsibility/achievement]
